Re: Small Mine Operation Exceeding Five Acres of Disturbance, Levin Stone Mining Company, L.S. #1 Project, S/027/086, Millard County, Utah

Dear Mr. Hedburg,

In response to your certified letter of December 7, 2000, we have chosen the first option in order to remedy this situation.

We have discussed the plan with Larry Garahana at the Fillmore, Utah BLM office, and have come to the following consensus:

1. We will close and fill in the 3.45 acre southern most quarry.
2. For the remaining .48 acre overage, we will close a portion of the rock storage area, reducing it to approximately one acre.

This will keep our small mining operation under the required 5 acres of disturbance.

Please contact us if you need further information.

Thank you for your assistance.

Sincerely,

Philip N. Levin
President
Levin Stone Co., Inc.
